

OUR GOALS AND COMMITMENTS IN TERMS OF HEALTH AND SAFETY

1. Our Show issues

- ▶ **2 million** of working hours
- ▶ **15 000 staff**
- ▶ **Hundreds of construction sites** & dozens of French and foreign companies
- ▶ **130 000 m² of exhibition space and 192 000 m² of aircraft exhibition space**
- ▶ A diversity of **trade**
- ▶ A diversity of **working methods and habits**
- ▶ All of this makes supervision of this joint activity a key issue for **ensuring the health and safety** of people and goods
- ▶ **The Paris Air Show innovates and experiments** every edition to further strengthen construction site security

2. Our vision to handle these issues

- ▶ Definition of **strict regulations**
 - ▶ **Information, awareness campaign and training**
 - ▶ **Inspection and application of sanctions**
- The Paris Air Show applicable rules are **based on French regulations** as well as feedback from previous editions

3. Our actions in response

- ▶ **A handling service** to organize the on-site logistics
- ▶ A traffic plan **to structure the on-site movements**
- ▶ **A night work ban**
- ▶ **An improved signage and a bilingual audio messages**
- ▶ **A 4 person health and safety unit** for advice and monitoring measures

4. Our actions assessment

POSITIF RESULTS

- ▶ **-3%**
Reduction in the number of **work accidents**
 - ▶ **850**
Number of **control and reminders of safety regulations**
 - ▶ **427**
Number of **reports of safety and security**
- THIS HELPS TO:**
- ▶ **Measure** the understanding and respect of the rules
 - ▶ **Develop** rules, actions and tools
 - ▶ **The health and safety of the construction site is a collective action** that everyone involved in the Show must incorporate into their working methods

OUR GOALS AND COMMITMENTS IN TERMS OF COMFORT AT WORK

1. Our Show issues

- ▶ The construction of the Show is a **complex, intense and sometimes stressful undertaking**
- ▶ The Paris Air Show attempts to answer to the daily needs of contributors, **to build the most successful Show**

2. Our vision to handle these issues

- ▶ The Paris Air Show puts the needs of staff and businesses at the heart of its strategies
- ▶ Substantial investments to provide a **unique level of service**
- ▶ Create **the optimum conditions**
- ▶ The strategy and actions evolve every edition **to address to the new needs**

For more information contact:
Franck Teyssier, Technical Director
franck.teyssier@siae.fr

3. Our actions in response

Hiring of **skillful staff**

Easy access to the construction site

Providing **high-quality work tools**

Healthy catering for a moderate price

Facilities to ensure rest

etc.

4. Our actions assessment

SOME STRATEGIC INDICATORS:

- ▶ **60,5%**
Compagnies having benefited from the self-service restaurant
- ▶ **24,4%**
Compagnies having used the Paris Air Show shuttle buses to reach the site
- ▶ **22%**
Compagnies having used the Paris Air Show Visitor train to move on-site
- ▶ **25**
Number of site facilities

THIS HELPS TO:

- ▶ **Measure the efficiency** of actions and tools from a quantitative perspective
- ▶ **The Paris Air Show strategy for continual improvement** cross-references these quantitative indicators with a qualitative campaign based on a satisfaction survey for the various Paris Air Show stakeholders

OUR GOALS AND COMMITMENTS IN TERMS OF THE OPTIMIZATION OF THE ENVIRONMENTAL FOOTPRINT

1. Our Show issues

- ▶ The construction and the organization of the Paris Air Show have a significant **environmental impact**

2. Our vision to handle these issues

- ▶ The Paris Air Show has conducted since 2013 **fine analysis of its impacts** to identify alleviation strategies and technical solutions
- ▶ The optimization of the environmental impacts is a **collective concern**:
 - Exhibitors: with **eco-designed installations**
 - Providers: with **innovative and technical solutions**
 - Visitors: with a choice of **collective transportation**

For more information contact:
Franck Teyssier, Technical Director
franck.teyssier@siae.fr

3. Our actions in response

The Paris Air Show attempts to reduce the impacts of the activities which it masters directly and drives an incentive policy for the activities under the responsibility of other stakeholders

THE PARIS AIR SHOW POLICY:

- ▶ Reusable carpet made up of tiles for 100% of the general installation
- ▶ **Electric golf-cars**
- ▶ **Structural investment** to reduce the use of generating sets
- ▶ **Waste recycling and management plan**
- ▶ **Repair, storage and re-use** of the Chalets building materials
- ▶ **Environmental study** on the Parc George Valbon Natura 2000 site

THE INCENTIVE POLICY:

- ▶ Public **transportation plan**
- ▶ **Re-Use disposal** to boost the resumption of building materials
- ▶ **A responsible purchase policy**
- ▶ A **CSR Guide** for Exhibitors
- ▶ An **eco-materials** library in partnership with AMAT

4. Our actions assessment

FOCUS ON WASTE:

Waste collection and treatment during the build-up and Show period and a general installation provided by the Organizer for the dismantling

- ▶ **958 tons of waste**, 15% increase compared with 2015
- ▶ **30% of waste was sorted and recycled** into wood, cardboard, metals and paper. This represents a 6% reduction in the sorting between 2017 and 2015 but a 3% increase compared with 2013

FOCUS ON ENERGY:

- ▶ **2017 was extremely hot** – exceptional use of air conditioning
- ▶ **Resulted in higher energy consumption** than in previous edition (around 61% more)

FOCUS ON THE TRANSPORTATION:

+ than 200 000 people used the special shuttles provided by the Paris Air Show between the RER station and the Bourget site
